

MHTN
ARCHITECTS

Interior Designer

MHTN Architects, Inc. is seeking a full-time interior designer with 5+ years expertise in corporate interior design to join our K12 school design team.

MHTN is an 80-person design firm specializing in the planning and design of K-12 Education, Higher Education, Healthcare, Corporate, Civic and Religious projects with decades of experience in-state and regionally, as well as across the nation and overseas. As a firm, we operate around core values of design, respect, client service, empowerment, accountability, teamwork, environmental responsibility, technical expertise, and community service. MHTN offers a collaborative work environment that promotes professional growth and advancement. We seek team members who have a passion for designing built environments and self-motivated contributors that will embrace and expand our culture.

We are searching for candidates who express a passion for designing learning environments for K12 students. While experience in corporate interior design is required, experience in designing K12 interior environments is preferred but not required. We are also seeking candidates who are well organized, creative, forward thinking, detail oriented and work effectively in a collaborative team environment while also working autonomously on given tasks. Candidates must also possess the following:

- Perform interior design assignments that include space planning concepts, program documents, conceptual design, schematic design, design development, construction documents and a knowledge of structural, mechanical, and electrical engineering concepts.
- Thorough knowledge of building materials and codes, material compatibility and characteristics, construction techniques and costs, furniture systems and selection of FF&E material palettes.
- Project management experience and leadership skills.
- Good collaboration skills, organized and able to work in a team environment as well as ability to work with minimum supervision.
- Excellent graphic and visualization skills to effectively communicate design concepts.
- Strong presentation, verbal and writing skills.
- Proficient in Revit, AutoCAD, SketchUp, Adobe Creative Suite and MS Office.
- Bachelor's Degree in Interior Design from accredited school is required
- Preference will be given to those who have obtained NCIDQ Certification
- LEED Accredited Professional is encouraged but not required

Position offers a competitive compensation package including vacation, personal leave, health and 401k benefits.

Interested candidates are asked to submit for consideration samples of their work relative to corporate/commercial interior projects to Linda Kruse (linda.kruse@mhtn.com) along with their resumes.
